3. HOW TO PLAY

Hitting the ball

When the ball is in play, an “X” will appear on the ground. This shows you where the ball is going to land.

To hit the ball, go to the mark and press the A Button when the ball gets to you. Remember that in beach volleyball, the ball can only be hit up to 3 times on each side. The first hit will always be a “bump”. The second hit will usually be a “set”. And the third hit will hopefully get the ball over the net (spike it if you can!) To do a spike, use the B Button to jump into the air, then hit the ball with the A Button. As on a serve, you can control the direction of the spike with the  Control Pad.

To do a SUPER SPIKE, after you jump, press the B Button 3 or more times while you are in the air. If you do this correctly, your hand will begin to glow. Then hit the ball with the A Button and KABOOOM! The timing of a SUPER SPIKE is a bit tricky, but well worth the time needed to perfect it.

Serving

To toss the ball, press the A Button. To hit the ball, press the A Button again when the ball is within reach. To do a jump serve, press the B Button to jump after you toss the ball (don't forget to press the A Button again to hit it!) You can also control the depth and direction of the serve by using the  Control Pad when you hit the ball. Practice makes perfect!

Blocking

In order to block a spike, you must get your player right next to the net where the spike is about to occur, then press the B Button to jump. It is even possible to block a SUPER SPIKE if you're quick enough. Just press the B Button as fast as you can while you're in the air!

Diving Shot (Dig)

If you aren't close enough to the ball when you try to hit it, your player will automatically dive for the ball.

Tips

The key to Super Spike V'Ball is practice. When just starting out, play a few games in the EXERCISE mode to get the feel of the game.

Teamwork is also very important. Work with your partner. Being a "ball hog" will often result in losing a point.

4. INTRODUCING THE PLAYERS

GEORGE & MURPHY

George and Murphy were the champions last year! They are very well balanced players. When just starting out, this is the easiest team to use.

AL & JOHN

Former soldiers, Al and John have a lot of power, but have poor defensive technique and are pretty slow. If you like to use the "SUPER SPIKE" often, this is the team to play with.

BILLY & JIMMY

Billy and Jimmy have been trained extensively in the martial arts. Their defense is superb. They do have a weak spot though — poor spiking power. Use them for a great defense against teams that spike often.

ED & MICHAEL

Ed and Michael are the quickest players on the V'ball court. Their hitting power is average. Choose them if you're having trouble getting to your opponents shots.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio—TV Interference Problems.

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

Redmond, WA 98052

This warranty shall not apply if the PAK has been damaged by negligence, accident, unreasonable use, modification, tampering, or by other causes unrelated to defective materials or workmanship.

REPAIR/SERVICE AFTER EXPIRATION OF WARRANTY:

If the PAK develops a problem requiring service after the 90-day warranty period, you may contact the Nintendo Consumer Service Department at the phone number noted above. If the Nintendo Service Representative is unable to solve the problem by phone, he may advise you of the approximate cost for Nintendo to repair or replace the PAK and may provide you with a Return Authorization number.

You may then record this number on the outside packaging of the defective PAK and return the defective merchandise, FREIGHT PREPAID AND INSURED FOR LOSS OR DAMAGE, to Nintendo, and enclose a money order payable to Nintendo of America Inc. for the cost quoted you. (Repairs may also be charged on a VISA or MASTERCARD credit card.)

If after personal inspection, the Nintendo Service Representative determines the PAK cannot be repaired, it will be returned and your payment refunded.

WARRANTY LIMITATIONS:

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO NINETY DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL NINTENDO BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.

The provisions of this warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitations and exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
