TETRIS*

INSTRUCTION BOOKLET

The NES Files

<http://www.nesfiles.com>

This official seal is your assurance that Nintendo has reviewed this product and that it has met our standards for excellence in workmanship, reliability and entertainment value. Always look for this seal when buying games and accessories to ensure complete compatibility with your Nintendo Entertainment System.

All Nintendo products are licensed by sale for use only with other authorized products bearing the Official Nintendo Seal of Quality™.

Thank you for selecting the Nintendo Entertainment System® TETRIS* Pak.

Please read this instruction booklet to ensure proper handling of your new game, and then save the booklet for future reference.

PRECAUTIONS

- 1) This is a high precision game. It should not be stored in places that are very hot or cold. Never hit it or drop it. Do not take it apart.
- 2) Avoid touching the connectors. Do not get them wet or dirty. Doing so may damage the game.
- 3) Do not clean with benzene, paint thinner, alcohol or other such solvents.
- 4) Store the Game Pak in its protective sleeve when not in use.
- 5) Always check the Game Pak edge connector for foreign material before inserting the Game Pak into the Control Deck.

Note:

In the interest of product improvement, Nintendo Entertainment System specification and design are subject to change without notice.

WHAT IS TETRIS?

TETRIS is a new type of puzzle game from the Soviet Union that tests your reflexes. It's really simple to play. Seven different shaped blocks fall down the game field one after the other. The object of the game is to keep the blocks from piling up to the top of the game field. To do this, you can move the blocks to the left and right, and rotate them as they fall. If you can completely fill in one horizontal line, that line disappears and you get points. If the blocks pile up to the top of the game field, then that's the end of the game. TETRIS is simple, easy-to-understand, but difficult to drag yourself away from!

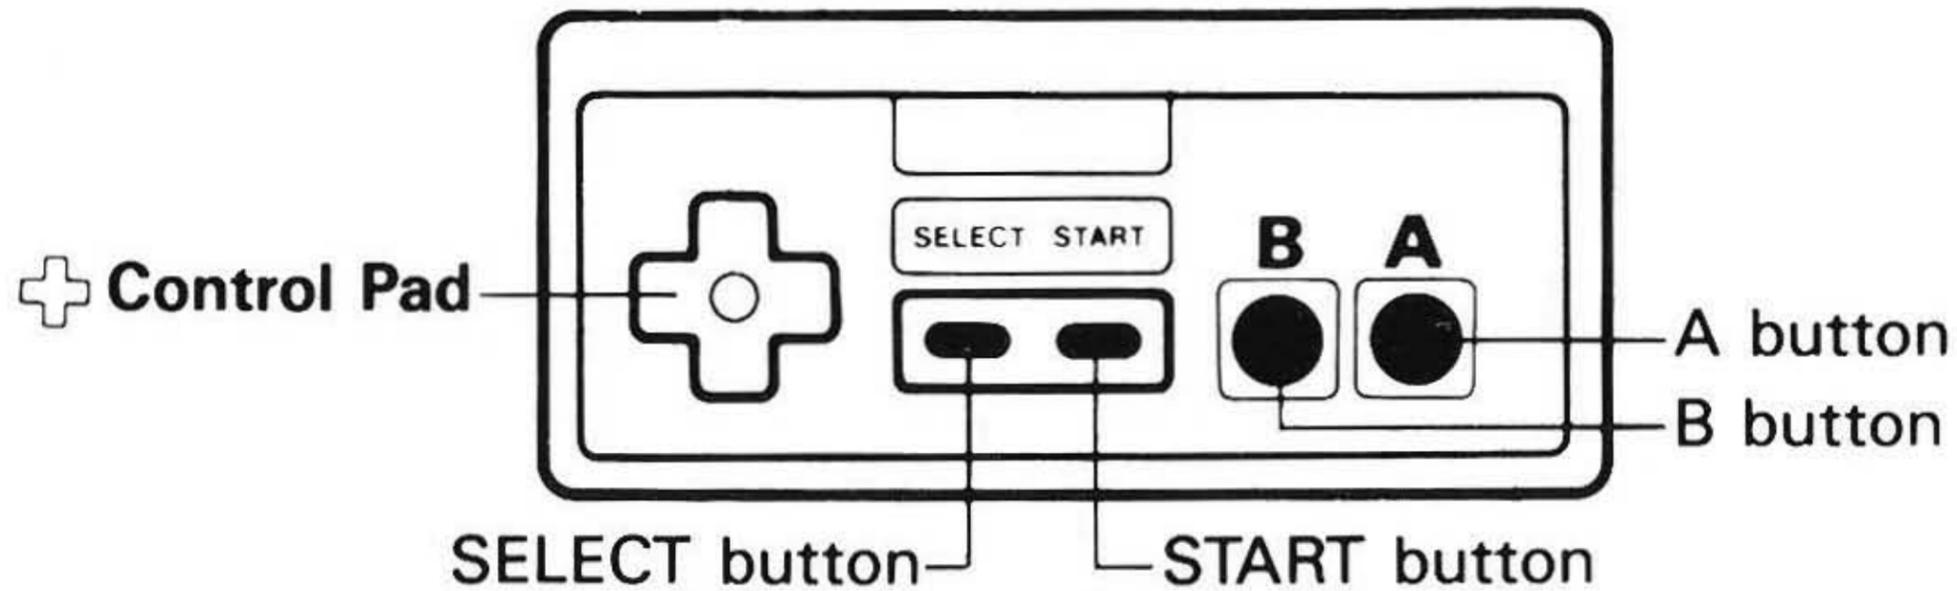

TETRIS originally came from the word "tetra" meaning the number 4. By rearranging four squares, you can make seven different shapes which are the pieces used in this game.

With TETRIS, you can play two types of games: endurance game A, and game B where you play for the highest score at the 25th line.

How to Use the Controls

Controller 1

• Basic Operations

← Moves blocks to the left.

→ Moves blocks to the right.

↓ Makes the blocks fall down fast.

Use these controls to select TYPE, LEVEL or HEIGHT.

Select which way to rotate the block while it is falling down:

A Button : Block rotates 90° clockwise each time button is pressed.

B Button : Block rotates 90° counter-clockwise each time button is pressed.

SELECT button : Use to delete the NEXT display during play. (Press again to restore). This will make the game more difficult as you won't be able to see what the next shape is until it actually appears in the playfield.

START button : Use to start the game.

Press during play to pause. Press again to resume play.

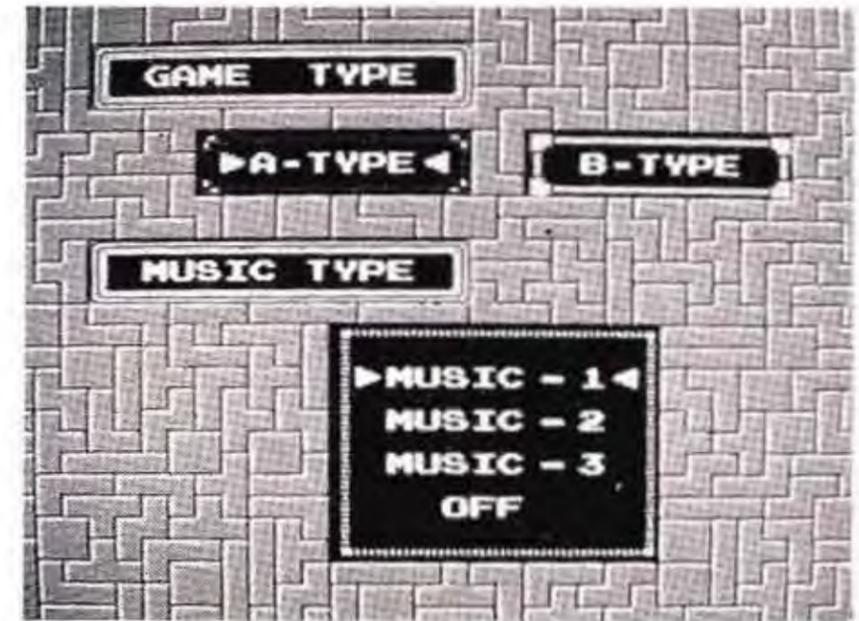

- * The license screen will be returned to and the game will be reset if A button, B button and the SELECT button are pressed at the same time during game play. The TOP SCORE will not be erased. (This functions in the same way as the RESET switch.)

The NES Files

<http://www.nesfiles.com>

☐ HOW TO PLAY

- GAME TYPE/MUSIC TYPE setting screen
Pick GAME TYPE. (Pick either A-TYPE or B-TYPE.)
Pick MUSIC TYPE. (Pick either MUSIC-1, -2, -3, or OFF.)

GAME TYPE/MUSIC TYPE setting screen

☐ A-TYPE game

This is a test of endurance where you must try to get a high score by completing as many lines as possible.

Choose the LEVEL (falling speed of the blocks) on the LEVEL setting screen. (The higher the LEVEL, the faster the blocks fall down.)

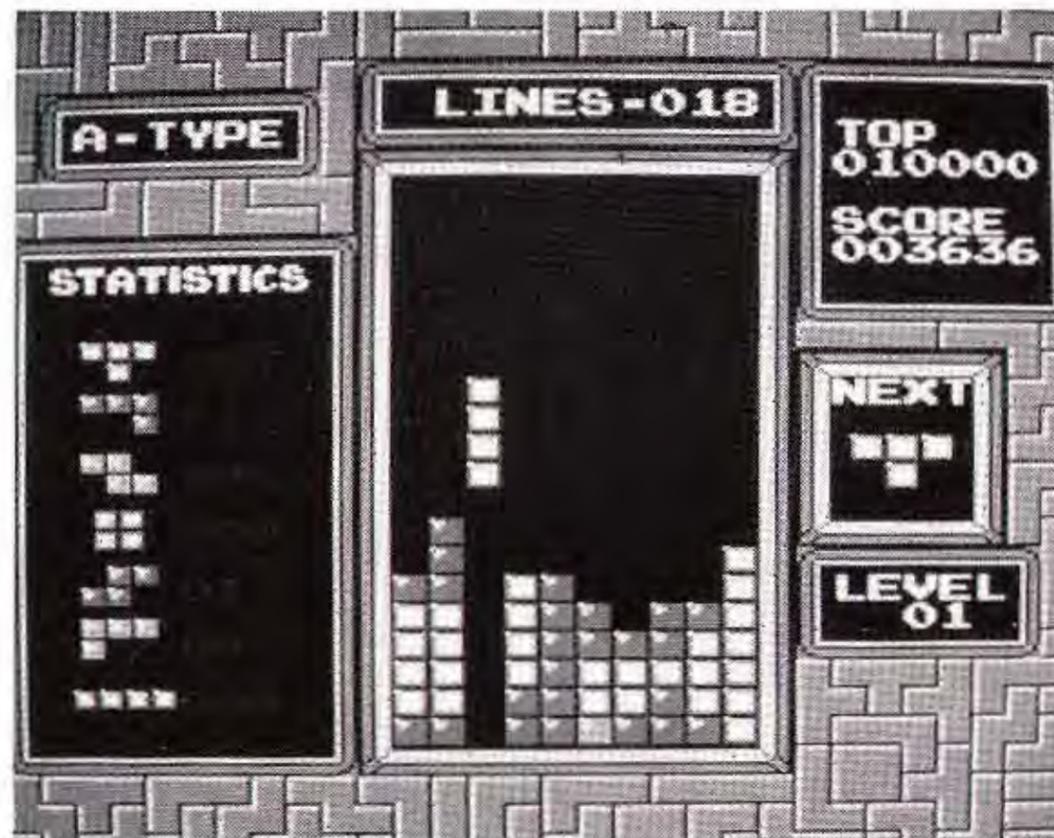

During the course of the game, the LEVEL gradually increases and the game gets increasingly harder. When the blocks have reached the top of the game field, that's the end of the game.

A-TYPE LEVEL setting screen

The NES Files

<http://www.nesfiles.com>

- LINES** Shows the total number of lines that have been completed since the start of the game.
- SCORE** Shows the score you have earned by completing the lines and dropping blocks.
- STATISTICS** Shows the number of each of the seven types of blocks that have fallen so far.
- NEXT** Shows the next block. (This can be turned off by pressing SELECT during game play.)
- LEVEL** Shows the falling speed of the current block on screen.
- PLAYFIELD** This is where the action is.

The NES Files

<http://www.nesfiles.com>

❑ B-TYPE game

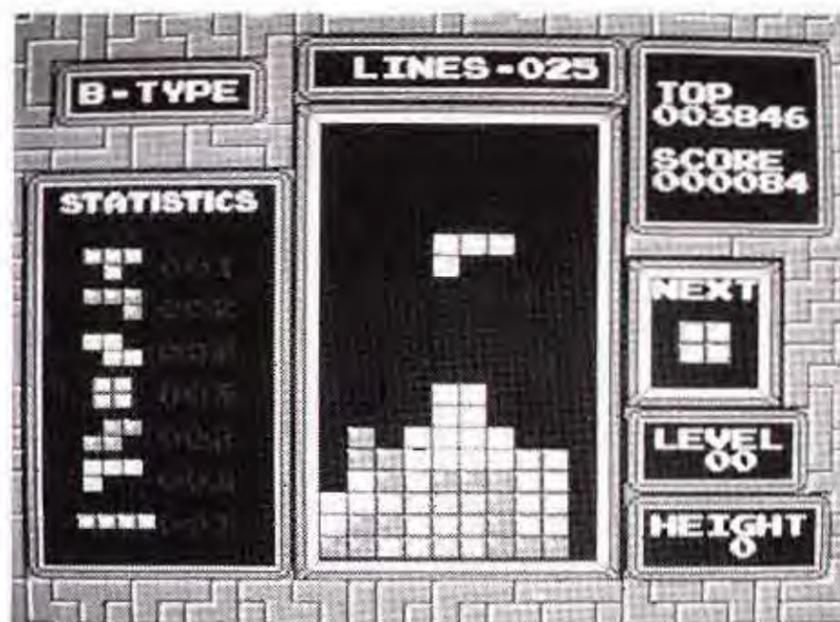

The object of this game is to complete 25 lines.

Select and set LEVEL and HEIGHT (height of the random blocks) at the LEVEL setting screen. The higher the HEIGHT setting, the higher the random blocks are placed at the bottom of the game field.

If the blocks reach the top of the game field, your game is over.

* Game B differs from game A in that the level of the game does not change.

B-TYPE LEVEL Setting Screen

LINES	Shows the remaining number of lines (decreases from 25).
SCORE	Shows the score you have earned by completing the lines.
STATISTICS	Shows the number of the seven types of blocks that have fallen so far.
NEXT	Shows the next block. (This can be turned off by pressing SELECT during game play.)
LEVEL	Shows the falling speed of the current block on screen.
HEIGHT	Shows the height of the random blocks.
PLAYFIELD	This is where the action is.

- **TOP SCORE**

The names (up to six letters) and the scores of the top three players can be registered for both games A and B.

Use the top and bottom of the  Control Pad to select the letter of the alphabet. Use the left and right of the  Control Pad, the A button, or the B button to move the cursor.

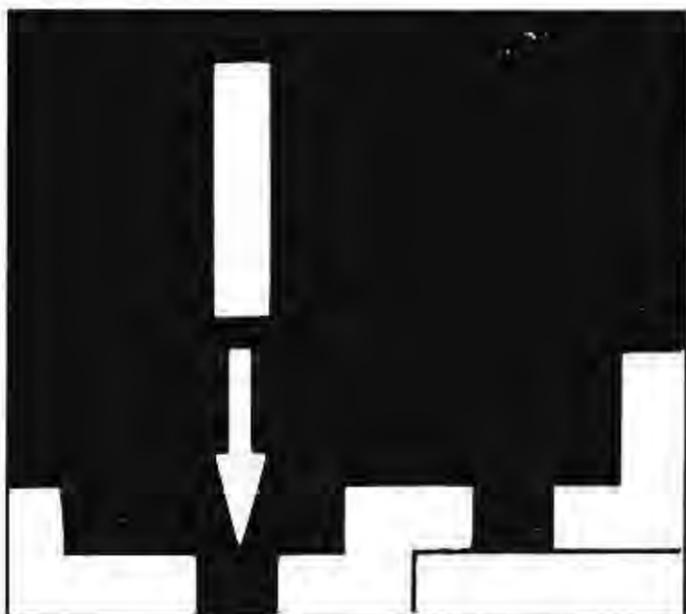

Press the START button to go back to the LEVEL setting screen.

* The top scores will be erased from memory when the power is turned OFF.

- **TECHNIQUE**

- Remember that there are seven different types of TETRIS blocks.

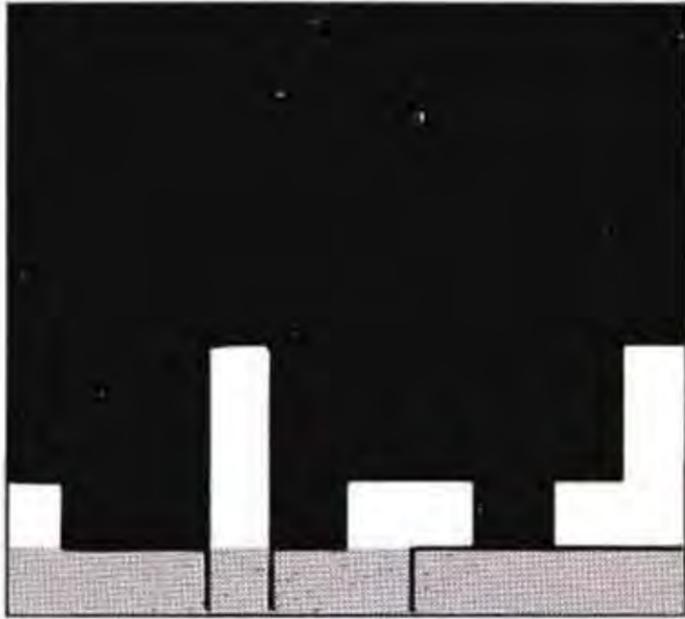

- Line up the blocks to form a single line.

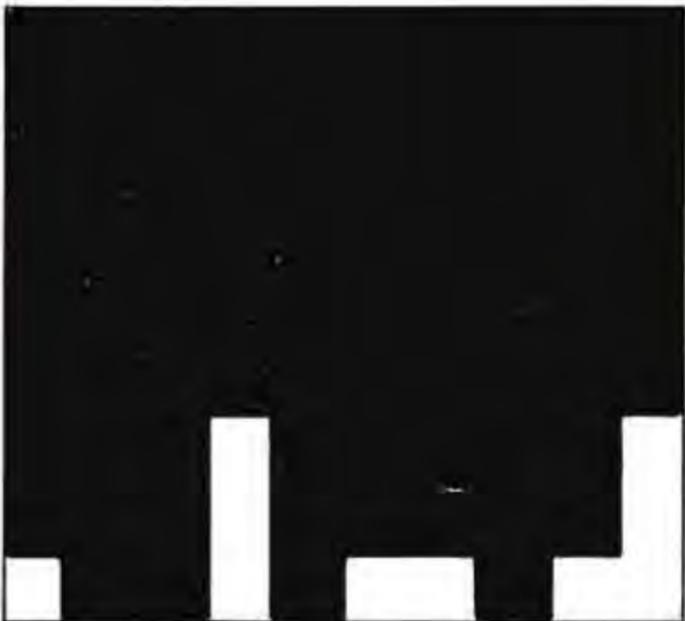

Align the blocks in a horizontal line making sure there are no gaps.

The NES Files

<http://www.nesfiles.com>

If a complete line with no gaps is formed, that line will disappear from the screen.

All the blocks remaining on the screen will fall down one line.

As you get better at the game, you can complete two lines (a double), three lines (a triple) or four lines (a "TETRIS") with the drop of one block. Doubles, triples and TETRISes will result in higher scores.

The NES Files

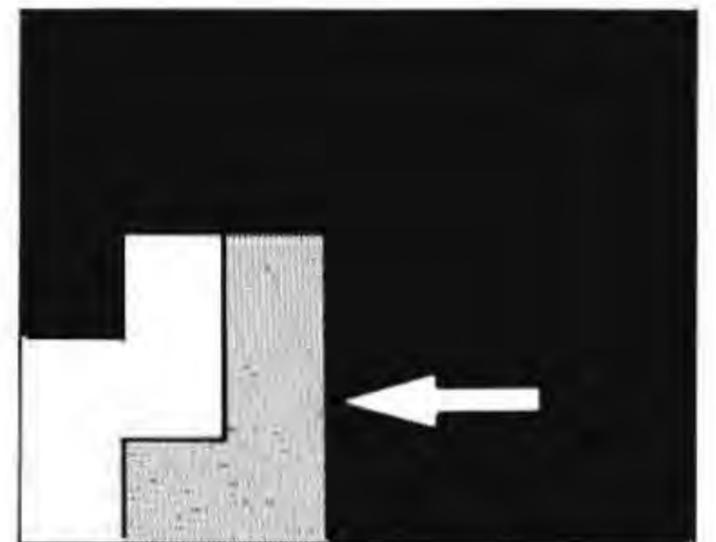

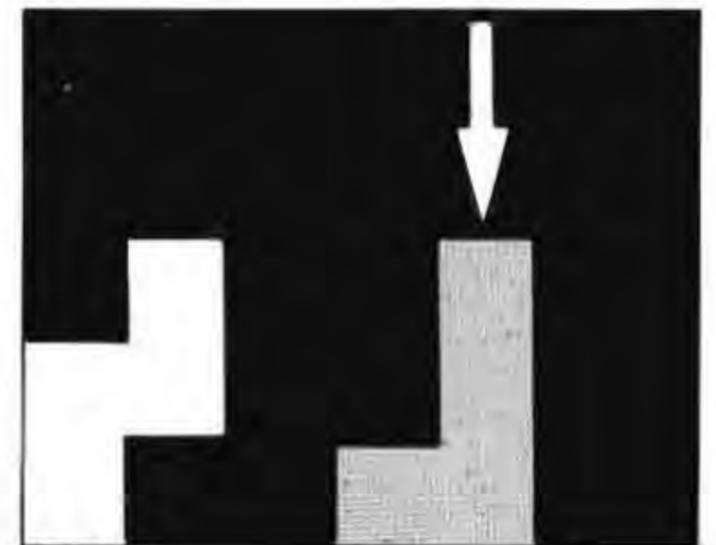

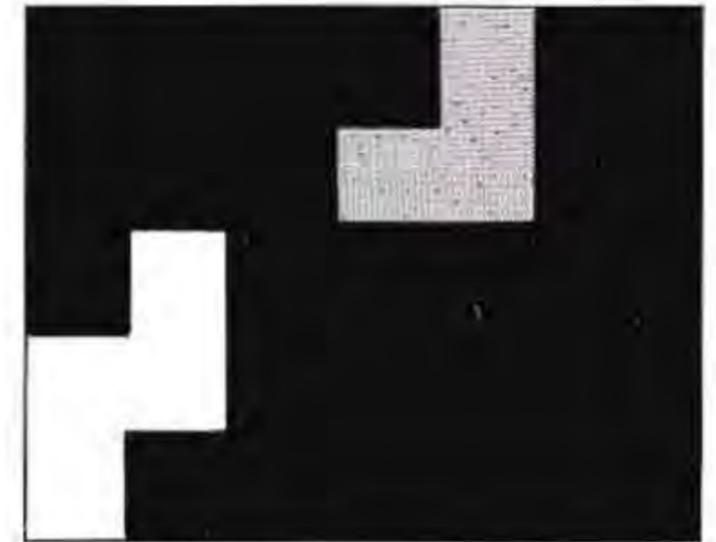

<http://www.nesfiles.com>

- What should I do when this happens?

The situation shown in the drawing may occur during the game.

First, don't panic! You may be able to fix the hole with the next block. In this case, wait for the next block to land and slide that block across before the "thud" sound. (See illustrations at right.)

Skillfully link the blocks together to turn a tight situation into a chance for extra points.

☐ How to play more difficult games:

For those of you who think that TETRIS is too easy after mastering LEVEL 9 and HEIGHT 5, hold down A button and press the START button during the LEVEL setting screen. You can enjoy a much faster and more challenging game.

* The falling speed of the blocks will be the preset LEVEL + 10.

☐ About Scoring

- The higher the position that the block is dropped from, the higher the score. If blocks appearing at the top of the game field are dropped by pressing the ↓ of the + Control Pad, the score obtained will change according to the height from which it was dropped.
- Get a high score by completing 2, 3 or 4 lines at once. The deeper the pile of lines that is completed, the higher the score, especially when you complete a four-line TETRIS.
(Scores also differ according to the game level.)

- B-TYPE games

Once you have dropped 25 lines, you get a bonus score added to your real score.

Clear score = real score + LEVEL No. x 1000 + HEIGHT x 1000

* However, the bonus score when you have started play in the high-speed mode is calculated at the original LEVEL No. (LEVEL No. in high-speed mode -10).

Score Table

LEVEL	0	1	2	3	4	5	6	7	8	9
Single	40	80	120	160	200	240	280	320	360	400
Double	100	200	300	400	500	600	700	800	900	1000
Triple	300	600	900	1200	1500	1800	2100	2400	2700	3000
TETRIS	1200	2400	3600	4800	6000	7200	8400	9600	10800	12000

* This table applies to both game A and B.

* The score increases in the same way at LEVEL 10 and higher.

 **WARNING** 

DO NOT USE WITH FRONT OR REAR PROJECTION TV

Do not use a front or rear projection television with your Nintendo Entertainment System[®] (“NES”) and NES games. Your projection television screen may be permanently damaged if video games with stationary scenes or patterns are played on your projection television. Similar damage may occur if you place a video game on hold or pause. If you use your projection television with NES games, Nintendo will not be liable for any damage. This situation is not caused by a defect in the NES or NES games; other fixed or repetitive images may cause similar damage to a projection television. Please contact your TV manufacturer for further information.

COMPLIANCE WITH FCC REGULATIONS

This equipment generates and uses radio frequency energy and if not installed and used properly, that is, in strict accordance with the manufacturer's instructions, may cause interference to radio and television reception. It has been type tested and found to comply with the limits for a Class B computing device in accordance with the specifications in Subpart J of Part 15 of FCC Rules, which are designed to provide reasonable protection against such interference in a residential installation. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient the receiving antenna
- Relocate the NES with respect to the receiver
- Move the NES away from the receiver
- Plug the NES into a different outlet so that control Deck and receiver are on different circuits.

If necessary, the user should consult the dealer or an experienced radio/television technician for additional suggestions. The user may find the following booklet prepared by the Federal Communications Commission helpful:

How to Identify and Resolve Radio—TV Interference Problems.

This booklet is available from the U.S. Government Printing Office, Washington, D.C. 20402, Stock No. 004-000-00345-4.

90-DAY LIMITED WARRANTY

90-DAY LIMITED WARRANTY

Nintendo of America Inc. ("Nintendo") warrants to the original purchaser that this product shall be free from defects in material and workmanship for a period of 90 days from the date of purchase. If a defect covered by this warranty occurs during this 90-day warranty period, Nintendo will repair or replace the product or component part, at its option, free of charge.

WARRANTY SERVICE

To receive this warranty service:

1. **DO NOT** return your product to the retailer.
2. Please call Nintendo's **WORLD CLASS SERVICEsm** Center at 1-800-255-3700. Our hours of operation are from 4:00 am to Midnight, Pacific Time Monday through Saturday, and from 8:00 am to 5:00 pm, Pacific Time Sundays (times subject to change). If the Nintendo Service Representative is unable to solve the problem over the telephone, you will be referred to the nearest Nintendo **WORLD CLASS SERVICEsm** location for prompt, professional warranty service.

To satisfy the needs of our customers, Nintendo maintains a nationwide network of **Authorized WORLD CLASS SERVICEsm CENTERS** located in major metropolitan areas and also offers express factory service. In some instances it may be necessary to ship the complete product, **FREIGHT PREPAID AND INSURED FOR LOSS OR DAMAGE** to the nearest service location.

This warranty shall not apply if the product has been damaged by negligence, accident, commercial use, unreasonable use, modification, tampering, or by other causes unrelated to defective materials or workmanship. This warranty shall not apply if any product serial numbers have been altered, defaced, or removed.

WARRANTY LIMITATIONS

ANY APPLICABLE IMPLIED WARRANTIES, INCLUDING WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, ARE HEREBY LIMITED TO NINETY DAYS FROM THE DATE OF PURCHASE AND ARE SUBJECT TO THE CONDITIONS SET FORTH HEREIN. IN NO EVENT SHALL NINTENDO BE LIABLE FOR CONSEQUENTIAL OR INCIDENTAL DAMAGES RESULTING FROM THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTIES.

The provisions of this warranty are valid in the United States only. Some states do not allow limitations on how long an implied warranty lasts or exclusion of consequential or incidental damages, so the above limitation may not apply to you. This warranty gives you specific legal rights, and you may have other rights which vary from State to State.

REPAIR/SERVICE AFTER EXPIRATION OF WARRANTY

To receive service after the expiration of your warranty:

1. Please call Nintendo's **WORLD CLASS SERVICEsm** Center at 1-800-255-3700. Our hours of operation are from 4:00 am to Midnight, Pacific Time Monday through Saturday, and from 8:00 am to 5:00 pm, Pacific Time Sundays (times subject to change). If the Nintendo Service Representative is unable to solve the problem over the telephone, you will be referred to the nearest Nintendo **WORLD CLASS SERVICEsm** location for prompt, professional repair and replacement components.

To satisfy the needs of our customers, Nintendo maintains a nationwide network of **Authorized WORLD CLASS SERVICEsm CENTERS** located in major metropolitan areas and also offers express factory service. In some instances it may be necessary to ship the complete product, **FREIGHT PREPAID AND INSURED FOR LOSS OR DAMAGE** to the nearest service location.
